as deadly as a snake's venom The liver acts as a guard over our well-being, sifting out the cinders and ashes from the general circulation.

A blockade in the intestines piles a heavy burden upon the liver. If the intestines are choked or clogged up, the circulation of the blood becomes poisoned and the system becomes loaded with toxic waste, and we suffer from headache, yellow-rosted tongue, bad taste in mouth, nausea, or gas, acid dyspensia, languor, debility, yellow skin or eyes. At such times one should take castor oil or a pleasant laxative. Such a one is made of Mayapple, leaves of aloe and jalap, put into ready-to-use form by Doctor Pierce, nearly fifty years ago, and sold for 25 cents by all druggists as Dr. Pierce's Pleasant Pelleta.

the British air force during the war, according to the Globe.

The patients, it is pointed out, would be able to live for several days or even weeks at a height of about 5,000 feet, enjoying complete rest and breathing air as pure and invigorating as that of any of the famous mountain resorts, which only the rich can afford to visit.

The big alreships built by England for war purposes, the doctor says, can be fitted up as sanatoria for patients suffering from consumption, anaemia, neurasthenia and other lile, and, egcept in very bad weather, can cruise about for weeks at a time.
